

Man Pleads Guilty To Assault Charge, Gets Year Probation

By Staff Correspondent

NORRISTOWN, April 15—Charles Kane, 49, Gilbertsville, who pleaded guilty to a charge of assault and battery in Criminal court yesterday, was sentenced by Judge E. Arnold Forrest to pay the costs of prosecution within six months. He must remain on probation for one year, the court ordered.

Kane was taken into custody by Chief of Police Theodore Berry, of Perkiomen township, Sept. 20, after the defendant assaulted Harvey Emert, 68, a junk dealer, Rahas.

Emert said he had just parked his truck at Rahas and was going to strike up a conversation with some friends when Kane, who had just emerged from a tavern, punched him several times in the face.

AS A RESULT of the beating, Emert said, he was admitted to Memorial hospital with fractures of the nose and jaw.

Kane admitted that he had been drinking and was not fully aware of his actions. He said he made settlement with Emert for the hospital bill and loss of wages.

Mr. and Mrs. Henry E. Maurer did much of the work themselves when this house of theirs at 1819 North Charlotte street (near Mineral street) was built in 1918. Such work as carpentry and plumbing was done by professionals, but the Maurers tackled such major projects as the painting inside and out. The frame is California cedar. The shingles are dark green. Downstairs are the living room, 12' 7" by 13', with stone fireplace; dining room, kitchen, center hall, two bedrooms and bath. The radiation is built into the baseboards. Upstairs are three unfinished rooms. Furnishings are antique style. They have a full cellar and a lot that's 90 by 140. Maurer is a timekeeper for the Concrete Products Company of America.

William Stanton, Pottstown RD 2, plumber for 17 years, commented, "I've been using acetylene for many years. We use it in heat solder for copper tubing. It does a good, fast job. You have to be careful with the stuff."

"I've always had respect for acetylene. It's like a small bomb if it blows off."

Michael Schneider, steel erector, Cold Springs Park, who has worked with acetylene for many years, said, "I can't understand how it happened. You can let acetylene leak out of a tank and it will not explode. I can't figure it out."

"If you permit gas to leak into a room and then a spark is introduced you'll have a potent explosion."

now if people didn't sweep their trash right into the streets.

"I'm especially surprised at the merchants on High Street. There's probably an ordinance against sweeping dirt into the streets but den explained, 'And on streets you wouldn't think they'd need an ordinance to make them keep the low gutters, the sweepers would sweep a lot of the dirt in the low nest.'"

SPEAKING of the street cleaning solution again, the manager said that from past experience in other communities he has learned that the educational process in "volving with cleaning streets is always a real problem, too."

"You have to get people trained to park their cars in other areas, the night their street is to be cleaned. You have to publish schedules and so forth. And you have to have a lot of cooperation from the police department at the outset."

"After a while, though, people get used to the schedule and really cooperate."

Stanford Claims Record-For College Blood Drives

PALO ALTO, Calif., April 17 (AP)—Stanford university tonight claimed a new national record for college blood collection drives after the final donor in a five day campaign turned in the 446th pint to aid Korean war wounded.

The mark far exceeded the previous campus record of 2810 pints set in 1931 by the University of Texas.

streets that aren't surfaced and those that have no curbs. "Gull-sweeping dirt into the streets but den explained, 'And on streets you wouldn't think they'd need an ordinance to make them keep the low gutters, the sweepers would sweep a lot of the dirt in the low nest.'"

The sweeper would do a good job on such streets as High Street, Charlotte, Hanover, King, part of Franklin and many other streets that are similar.

"I'd say that it would be effective on about 20 miles of the borough's streets," the manager estimated.

The main problem connected with the street flushing machine hinges on the small number of sewers the borough has.

"When you wash down streets you let the dirt and trash run down the gutters into the sewers. Not only is there a problem of not enough sewers but there's the further expense of cleaning out the sewers more often because of added silt."

And then, Gulden added, streets that are not surfaced and that have no curbs could not be cleaned with flushers.

But with both machines, about 20 miles of streets could be cleaned.

THE FINANCIAL aspect of solving the problem seemed brighter, however, according to Gulden.

"Let's say the borough would buy a sweeper. It would cost about \$12,000 for the machine. Then to keep the 20 miles of streets clean each week it would cost no more than the borough is spending right now just to keep High Street clean."

Right now the borough is spending between \$7000 and \$8000 each year to keep High Street swept up once a week.

After the sweeper had been purchased, it would cost that same amount to keep 20 miles of streets even cleaner.

"Of course, we could do a lot to keep the streets cleaner right

BURGLAR'S PLEA —

(Continued From Page One)

Jenkins readily and frankly pleaded guilty.

"You know you can get up to 20 years in prison for the burglary charge," commented Attorney Nelson.

"I KNOW THAT," I hope I get the 20 years," retorted the defendant as he glared defiantly at the warden of the Georgia prison where he had been jailed.

"If I return to Georgia I know I will be killed. I hope to get life here, your honor," continued Jenkins to Judge Forrest. "Give me life."

Jenkins said he was beaten with sandbags and rubber hoses while in the Georgia prison. He showed a scar on his left arm. He said he had scars on his legs from leg chains.

He said he feared if he were returned, he would be shot "while attempting an escape."

Judge Forrest scoffed at his fears and said he did not believe that such inhuman practices took place today.

Jenkins pointed to the jail warden. He insisted the warden had struck him with a sandbag.

Judge Forrest told him the only issue before the court here was the burglary charge in Pottstown. He said Georgia matters had no standing in the court.

Attorney Rubin in his plea to the court asked for the imposition of the maximum term of 20 years on Jenkins.

"I KNOW it is somewhat of a paradox for defense counsel to ask for a maximum sentence but we

are forced to prevail upon you to ask to give as much of a sentence as you possibly can here," he pleaded.

Judge Forrest replied he would impose a sentence on the defendant in accordance with the facts and incidents involved in the burglary. Taking into consideration the defendant's background of committing felony in another State.

"I will not and I cannot take into consideration that which may possibly happen to this defendant after he has served his sentence here," he added.

He sentenced Jenkins to pay the costs and to serve from one to two years in the county prison.

BERLIN, April 17 (AP)—The second Four Power conference on ways of avoiding aerial clashes over Germany adjourned tonight without agreement. Another meeting was scheduled for April 22.

Aerial Clash Conference Adjourns Without Accord

BERLIN, April 17 (AP)—The second Four Power conference on ways of avoiding aerial clashes over Germany adjourned tonight without agreement. Another meeting was scheduled for April 22.

The Russians proposed on April 8 that a single 60-mile wide air corridor be established for Allied planes flying over the Soviet zone to Berlin. This would replace the three narrower corridors now in use.

Jenkins pointed to the jail warden. He insisted the warden had struck him with a sandbag.

Judge Forrest told him the only issue before the court here was the burglary charge in Pottstown. He said Georgia matters had no standing in the court.

Attorney Rubin in his plea to the court asked for the imposition of the maximum term of 20 years on Jenkins.

"I KNOW it is somewhat of a paradox for defense counsel to ask for a maximum sentence but we

are forced to prevail upon you to ask to give as much of a sentence as you possibly can here," he pleaded.

Judge Forrest replied he would impose a sentence on the defendant in accordance with the facts and incidents involved in the burglary. Taking into consideration the defendant's background of committing felony in another State.

Truth has never been, can never be, contained in any one creed or system.—Mary Augusta Ward.

Ripe for Change in Fire Department?

A great deal of running for and cold conversation resulted when a Pottstown attorney, defending firemen who machine accused, said borough businessmen led fire companies to look to other channels for funds.

Was the borough stung? A council man said the accusation insulted him.

Should the borough give firemen more money? A correspondent to The Mercury thinks the fire companies should be borough-organized.

Too long for the adjacent Readers' Say column, this letter is reprinted here in the hope it will result in some constructive thinking. Here's the letter.

To the Editor: Now that all this talk about the fire companies is prominent again, I'd like to say something on the subject.

The borough is now paying each fire company \$11,500. In a few years they'll be paying even more. It's inevitable with all the squawking that the fire companies are doing.

Eventually, there'll be two more fire companies in the borough. That'll mean somewhere around \$75,000 that the borough is paying EACH YEAR.

Why, at that rate, in ten years the borough could own its own fire trucks and have its own department. One good big department could easily do the work these five companies would argue about doing.

And not only that.

But if the borough had its own department it would have TRAINED men, like in Philadelphia. The men would be skilled.

I know the volunteers do pretty good work. But I think it's just as senseless to have volunteer firemen as it would be to have volunteer policeman.

What's the difference? You don't only have police when a crime is committed? Why have firemen only when there's a fire? Regular firemen, like regular policemen, help PREVENT fires.

And then there's another thing. The borough government, which is supposed to be the voice of the people, has no recall, no jurisdiction over the fire companies at all.

If the council doesn't like—let's assume it will happen some time—the way the companies are fighting fires they can't do a thing about it. They can't call in the fire chief as they can the police chief and put him on the carpet.

The council is actually at the MERCY of these companies.

I have nothing to say about the past record of the firemen. And nothing to say about the firemen themselves. I'm talking about the future and arguing now to avoid future catastrophes.

The borough is growing! Why not let a borough department grow as the borough grows. Reading didn't do it. Trenton didn't do it. And now they're strapped with their volunteers—like it or not. And I believe many don't like it.

Personally, I think the situation in Reading is atrocious.

But the situation here will become the same. And NOW is the time to do something about it. In other States, towns even smaller than Pottstown have their own fire departments.

I think the fire companies should become ONLY social clubs. They are a habit. A tradition. But that's no logical reason for keeping them in.

Let's separate fun, sociability and liquor from fire fighting. Fire fighting is NOT a time for camaraderie.

Fire fighting should have nothing to do with weekly parties and bean suppers and poker games and bending the elbow at the bar.

Fire fighting is dealing with the safety of human beings. It's even more serious than police work because many more people die from fires each year than die from murders or shootings.

Every time I hear the fire horn I get scared. I wouldn't be scared if I knew that we had TRAINED, SKILLED, FULL TIME men on the job who knew what they were doing.

You don't let amateurs handle police speeding traps that save lives. But you do let amateurs handle fires that kill people.

Let's stop it now before there too big to stop it.

How do you feel about it?

Editor, The Mercury,
Dear Sir 'n' Brother:

Wal, I see by the papers where a doctor says teenagers are underfed. It's obvious he doesn't have to pay his family's grocery bill.

Over in Vienna they teach school children how to win at roulette. They write all the problems in red and black.

And say: I'd like to find some window pane glass that isn't allergic to corner lot baseball.

Hopla! you air the same.

PLEADS FOR VOICE AGAINST TAX

To the Editor: A community movement should be started to oppose the proposed State 2 percent sales tax. How a group of legislators can even think of such a tax is beyond me.

It's the type tax which hits all the lower income people. And then how in the world will a person be able to prove how much he has paid out in sales taxes when he files his Federal income tax statement.

Some persons run into enough trouble when they estimate the amount of gasoline taxes they have paid throughout the year.

There is only one group in the vicinity I have heard approve the sales tax. That was a Chester county Grange organization. The only reason they approved it was because they felt the tax would not affect them much since it is not placed on food.

They must have forgotten when they endorsed it that they also have to buy automobiles, tractors, plows and hundreds of other things they will have to pay taxes on.

TAXED PATIENCE

THE RACE FOR BIGGER THAN JONES!

To the Editor: Theft of that TV set from a local church may have been merely one man's way of solving one of the great problems of our times.

He no doubt had a small-screen set at home and wanted to replace it with a more modern type.

No up to date TV fan is satisfied with a small-screen set. It strains his eyes and imagination to peer at a post-card-size screen and also lowers his social standing in the trailer camp.

The man who commands the respect of his friends and neighbors these days is the one with the tallest and most com-

licated-looking antenna on his roof and the biggest screen in his combination living-dining-bedroom.

The ideal for which to strive in 1933 is the 27-inch life-size screen. Who wants to live a 17-inch life when other people are going in for 24- and 27-inch lives.

It is the wave of the future. Onward and upward we go.

Tomorrow we may live in a double-life-size world, and by next year we may enter the fourth dimension.

HOPES FOR MORE TV THIEVES

To the Editor: It was with a sigh of hope that I read about the man who stole the television set from the church in town.

It was with a sigh of disappointment that I read a suspect was caught. I was hoping against hope that he would steal my neighbor's set.

They have it on, full blast, from sunrise to sunset every day. Television is all right when you can see the picture, I guess, but when they have a murder mystery on, all I hear is an occasional scream and now and then a few gun shots. It's the wrong kind of suspense.

Censorship No Police Job

To the Editor: I agree that the chief of police in Sanatoga should be told to release the news about Lower Pottsgrove.

When a man starts setting himself up

as a censor and dictator in a community I think it's high time the board of supervisors, or the persons in charge, takes a look into the matter.

What the police chief doesn't seem to realize is that he is appointed and that he is a public servant. This is not the Army.

We people of Sanatoga have a right to know what's going on in our community.

It should be made public for everybody.

It shouldn't be left to the police chief whose name is going in the paper and who isn't.

I agree with the other letter writer who said that the police chief here is an ex-Pottstown policeman and did he take the same habits they have here with him?

Anyway, how can a chief be a chief when there's only one man on the force. Chief means head of somebody.

What do you say, Mr. Supervisors? Sanatoga SANATOGAN

All Brass Maybe

To the Editor: There's a joke making the rounds that if some of these township "police chiefs" around here were ever hit by a car, 20 people would be mangled in the gold rush!

To the Editor: The next time I try to cross High street at the west side of the Hanover street intersection I'm going to carry a rock with me.

The first car that comes north on Hanover street and tries to make a left turn right where I'm trying to cross is going to get the rock right in the windshield.

IT WILL BE just fine if Mario Lanza has (and can accept) all those film, concert and TV offers he says could earn him "three million dollars" within a year. Not only has Metro dropped the singer, who gave them giant headaches, but the studio is renegeing its huge damage suit against Lanza.

Whether the amount will be for the original \$3,000,000 or only \$800,000 (said to be the actual cost of production delays caused by Lanza) is still a question. It would take Mario's potential three million to pay off even the latter sum and still buy groceries, should he lose! With Warners the last of the major lots to capitulate, the TV hars on contract stars doing guest spots, are down. But heres the hitch: The stars may plug their pictures and be interviewed, but they can't be videoed or videahed while acting, singing or dancing! Silly, huh?

Hollywood

By EDITH GWYNN

HOLLYWOOD, April 17—Seems like everything is not "real George" with Jorgensen and that Christine is really still George! All of which poses the interesting question as to whether or not he (?) has the legal right to publicly wear women's clothes in this country!

As hinted here months ago, Spencer Tracy

beat Gary Cooper to the starring role in Ernest Hemingway's "Old Man and the Sea." Slightly amazing because Cooper

wanted the part so much—and he and Hemingway are pals. Most of the picture will be filmed in Cuba. But first, Tracy does one at Metro, tentatively titled, "Flight to the Islands."

Hannah Williams won't have any facial scars resulting from the dreadful recent hotel fire she was caught in. Her former mate, Jack Dempsey will help Hannah in every possible way to resume her singing career.

MOST OF THEIR friends don't find that "fatherly attitude" of Stewart Granger's toward Jean Simmons, nor some of the verbal wrist-slapping he administers. At all amusing. They're wondering out loud how long a marriage can survive such a routine. George Brent, who's been stage touring in "Affairs of State" is back in Hollywood to star in "Mexican Quest" for Allied Artists.

Linda Whitman, the tiny German actress who debuts in Paramount's "Botany Bay" with Alan Ladd, has a 19 inch waistline. So have Joanne Gilbert and Wanda Hendrix.

But Janie Powell's was only 16 inches around couple years ago, and is a mere 18 now!

Paul and Barnabas Carry The Gospel to Gentiles

Task of Spreading Christian Doctrine Takes Disciple to Many Foreign Places

The Golden Text

Paul and Barnabas at Lystra.

"We are ambassadors therefore on behalf of Christ, as though God were entreating by us: we beseech you on behalf of Christ, be ye reconciled to God."—II Corinthians 5:20.

By NEWMAN CAMPBELL

HOW DIFFERENT is travel in the world of today than it was in New Testament times. Today no country in the world is so far away from us that we cannot fly to it in a very short time. As an example, today one could fly from Spain to Antioch within 24 hours. In Paul's time it would have taken two months or more of travel—hard, wearisome toil on foot or by sailboat.

After Stephen's death, the disciples of Christ were cruelly persecuted, so many fled to such places as Phenice, Cyprus and Antioch, in Syria. In these places they continued to preach the word of God, and many converts were made, not only Jews, but also Greeks.

When the tidings of this reached the church in Jerusalem, they sent Barnabas to Antioch. He rejoiced at what he saw there, and exhorted them all, that with purpose of heart they might cleave unto the Lord. Barnabas was a "good man," St. Luke tells us, "full of the Holy Ghost and of faith."

Evidently feeling that more than his work was needed in Antioch, Barnabas went to Tarsus, where Paul was, and brought Paul back with him. The two labored with other prophets and teachers, "ministering to the Lord and fasting," until the Holy Ghost directed that they send Paul and Barnabas on their first missionary journey. The church fathers "laid their hands on the two, and they sailed to Cyprus."

When Paul and Barnabas had gone through Cyprus to Paphos, they found a sorcerer, or false prophet with a Roman governor, Sergius Paulus, who was anxious to hear the word of God. Barnabas or Elmas, the sorcerer, tried to divide the disciples away, but Paul looked at him, and rebuked him most severely, saying: "Thou full of subtlety and all mischief, thou child of the devil, thou enemy of all righteousness, wilt thou not cease to pervert the right ways of the Lord? And now, behold the hand of the Lord is upon thee, and thou shalt be blind, not seeing the sun for a season." Immediately the man lost his sight. When Paulus saw that miracle, he believed.

Leaving Cyprus, the missionaries went to Antioch in Paphlagonia (look on the map of Paul's journeyings to locate this other Antioch where, apparently, there had been no Christian activity). There Paul gave his first missionary sermon, giving a brief history of the Jewish nation and how God had led his people out of Egypt into the wilderness and had cared for them all the way.

Then he told of the coming of Jesus, and His message to His people; how the rulers knew Him not and put Him to death, but He was raised from the dead.

Many were much impressed with Paul's preaching and begged him to teach again. Many Gentiles were glad when they heard the missionaries' message was for them, too. "And the word of the Lord was published throughout all the region."

As usual, many Jews and "honorable women" of the city, too, were stirred up to resist the teaching and they "expelled Paul and Barnabas out of their coasts." So the two disciples shook the dust of that region from their feet and went to Iconium.

Both men went to the synagogue in Iconium, and spoke to a great multitude of Jews and Greeks, but the unbelieving among them were hostile, the city being divided, and when they were assaulted, the disciples fled to Lystra and Derbe.

In these places they preached, and at Lystra a man who was crippled with a lame leg, and had never walked, listened attentively to Paul. "Beholding him and perceiving he had faith to be healed, Paul said with a loud voice, 'Stand upright on thy feet!'" The man, without hesitation, did as he was told and "leaped and walked."

The people of the city were so excited by this miracle that they decided their gods had come to earth, calling Barnabas Jupiter and Paul Mercury, and they brought oxen and garlands and their priest "would have done sacrifice with the people."

Certain Jews came along who persuaded the people to turn against the missionaries, so that they stoned Paul and left him for dead. As the disciples stood around the supposed body of their leader, Paul rose up and departed with Barnabas to Derbe.

After more travels and much preaching, ordaining elders in every church, with prayers and fasting, they sailed at last to Antioch, from whence they had set out. There, when they "had gathered the church together, they rehearsed all that God had done with them, and how He had opened the door of faith unto the Gentiles."

Reaching Out From Antioch ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Buescher

STRENGTH FOR THESE DAYS

I say unto you, that likewise joy shall be in Heaven over one sinner that repenteth, more than over ninety and nine just persons, which need no repentance.—(St. Luke XV, 7.)

We can be living, or trying to live, Christian lives ourselves and still, at the same time, often be too sure of our own righteousness to think of our neighbors who, not living in Christ, seem beneath our notice. How much greater strength will come to us when, through our example and efforts, one who is without God shall come to know and believe on Him.

Editor Will Speak to First Presbyterian Congregation

Robert J. Cadigan's Address to Supplant This Week's Sermon

The editor of a nationally-known magazine will speak for the first time in Pottstown tomorrow morning.

He is Robert J. Cadigan, Swarthmore, editor and general manager of Presbyterian Life.

Cadigan will be guest speaker at the 11 a. m. service in First Presbyterian church. His address will supplant the regular sermon this week.

The speaker will tell the local congregation of his recent six-months trip around the world, during which he visited Korea and the mission fields in other lands.

THE REV. A. Burtis Hallock Jr., pastor of First Presbyterian, will introduce the speaker and conduct the worship portion of the morning service.

Cadigan has been editor of Presbyterian Life since its inception five years ago.

Published by authority of the General Assembly of the Presbyterian church, the magazine has grown until it now has a circulation of 650,000.

Presbyterian Life is a bi-monthly publication with editorial offices in Philadelphia. It appears every other Saturday.

Circulation of the magazine is 100 percent among members of First Presbyterian church. The local congregation sends a subscription to its entire membership.

Local Ministers Hold Farewell Dinner for Neighboring Pastors

Departing pastors of two neighboring Franklin street churches were given a farewell dinner in the Clover Leaf restaurant yesterday afternoon.

Sixteen fellow members of Pottstown Ministerial association gathered to bestow their best wishes on the two young clergymen at the Sunday meal.

The Rev. John F. Willson, pastor of Salem Evangelical United Brethren church, Franklin and Beech streets, and the Rev. Donald T. Floyd, pastor of Trinity Evangelical, one block away at Franklin and Walnut, were the honored members.

Both pastors will be up for reassignment at the annual conferences of their respective churches, both of which will be held next week—the EUB conference at Wilkes Barre and the Evangelical gathering at Lebanon.

AMONG THOSE who spoke briefly at the special dinner meeting was the Rev. Edward S. Horn, pastor of St. James Lutheran and president of the association.

The Rev. Horn presided and also presented each departing pastor with a gift certificate from a local bookstore.

The Rev. Laurence T. Beers, pastor of First Baptist, and the Rev. Edgar S. Brown, pastor of Grace Lutheran, were in charge of arrangements for the going-away dinner. They also spoke briefly.

The Rev. Willson came to Pottstown in April, 1950, after graduating from Albright college and theological seminary, Reading.

The youthful, unmarried pastor of the 190-member Salem church was reported last night by reliable sources as being in line for promotion within his denomination.

The Rev. Floyd has completed eight years here as pastor of Trinity Evangelical. Present rules of his denomination require the resignation of all pastors serving this length of time at one charge.

Prayer for the Week

By GABRIEL HEATTER
Radio Commentator

"Thou Who of old didst love
Thy hand to lay
On the dull vacant eyes that
craved for light,
Behold, I come to Thee, and
crying, pray:
O Christ, O Son of David, Give
me Sight.

"A faith scarce clouded by the
mists of earth,
A faith that pierceeth heaven,
I ask of Thee,
Faith to prize all things by their
lasting worth:
Thou canst, Thou wilt—O Lord,
that I may see!"

Earl R. Strange, chairman of council's police committee, last night reported, "The new men will come in tomorrow to talk over their work and clothing allowances."

"The chief will do the assigning. I imagine they'll begin their beats about the first of the month."

Shuler Calls Washington 'World's Cocktail Capital'

CINCINNATI, April 17 (AP) — Dr. R. P. Shuler, Los Angeles, one of the founders of the National Association of Evangelicals, last night called Washington "the cocktail capital of the world."

The 13-year-old Dr. Shuler, who spoke at the Evangelicals convention here, said "I am convinced that the peril of America is not the deceit in the hearts of the so-called peace-loving Communists, but in the fact that many of the men in Washington charged with thinking and dealing with the destiny of the world are half drunk."

Bible Words to Live by

My favorite Bible verses are these from Romans 8:38-39:

"For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor things present, nor things to come, nor powers, nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord."

This means that in all matters affecting man's eternal welfare he is beyond the reach of any human dictator, he is not dependent upon any human institution. Man's relation to God is personal, direct, immediate. My faith has cost me nothing, but round the world, thousands are called upon today to suffer for their faith. I have often wondered if I could take anything that may happen to me and do so with the certainty and the serenity that characterized Jesus. The knowledge that nothing can separate me from the love of God is the underlying assurance that enables a man to face the future unafraid.

GROUP TO SELL ISRAELI BONDS

Persons Here Organize To Sponsor Sales of Jewish Securities

A Pottstown committee for the sale of State of Israel bonds has been formed here. It was announced yesterday by Maurice Miller, co-chairman of the committee.

The committee was formed at a meeting of local citizens in the home of Mr. and Mrs. Leon Prince, North Roland avenue.

Prince also will serve as a co-chairman of the group.

The two will be assisted by a committee of citizens and all Jewish organizations in the borough.

THE STATE OF ISRAEL in dependence bonds issue is the central source of funds for Israel's historic program of economic development, Miller said last night.

The sale of the bonds in the U.S. is directed by the American Financial and Development corporation for Israel, an organization created by Henry Morgenthau Jr., former secretary of the treasury, Miller added.

Similar committees have been formed in communities throughout the country, Miller went on to say.

Purge of Zoltan Vas Confirmed by Paper

VIENNA, Austria, April 17.—A Budapest newspaper confirmed today reports that Zoltan Vas, a top Hungarian Communist, has been purged.

The newspaper Magyar Nemzet said Vas has been replaced as chief of the important State Economic Planning office by Ferenc Herceg, the deputy chief. Herceg, a one-time locksmith, had been director of an iron and steel combine at Dugaveer.

Diplomatic reports the past February said Vas, a Jew, had been purged in the course of an anti-Semitic wave of dismissals. One report said he had committed suicide. Later he was said to have been demoted to an insignificant job as commercial director of a state-owned mine at Komlo.

The newspaper said also that members of the State planning office had named Herceg as their candidate for parliament in the May 17 election. This indicated Vas has already lost his parliamentary seat or will do so in the elections.

Lutheran Churches Opens Conference

BERLIN, April 17.—Lutheran church leaders from both East and West Germany opened a five-day conference today in the British sector of Berlin. The final day of the conference will be devoted to a discussion of the Lutheran church's position on the Communist takeover of the German Democratic Republic.

The church situation in Soviet-occupied East Germany was high on the agenda. Original plans to hold the conference in the Soviet zone town of Weimar had to be abandoned when the Communist Government refused to issue permits to the West German delegates.

Among foreign guests of honor was Dr. Julius H. Bodensieck, an American member of the Lutheran World council.

Confessed Burglar Gets 2 1/2 to 5-Year Term in Penitentiary

A man who committed burglaries in Glen Loch, Eagle, Bucktown and Valley Forge pleaded guilty in Chester county court yesterday to six charges of burglary and larceny.

Floyd George Jenkins, 35, formerly of 337 George street, Norristown, was sentenced to from two and one-half to five years in the Eastern penitentiary.

The charges to which he pleaded guilty arose from a series of robberies in northern Chester county in November and December of 1951.

THEY INCLUDED burglaries of a service station in Phoenixville, a farm market near Glen Loch, service stations and stores around Eagle and Bucktown, and an electrical appliance store in Valley Forge.

The man had just finished serving more than a year in Montgomery county prison. He had been arrested in Montgomery county with two accomplices on Dec. 22, 1951, after committing similar burglaries.

LET'S STICK TO MOSES!

When they were preparing to produce the motion picture "The Ten Commandments," the director and the author of the story consulted a professor who had been recommended as an authority on the Law of Moses. They expected a scholarly explanation, but when the professor, had finished, there was little of the "Ten Commandments" and no story.

After the interview, when they were alone again, the director remarked: "Well, stick to Moses!"

Yes, let's stick to Moses! The Bible says that God gave the Ten Commandments to Moses, and there is no better way of doing so than by sticking to Jesus Christ, Who gave us the Commandments of love—the love of God and the love of our neighbor. All other Commandments are contained in these two.

"Thou shalt love the Lord, thy God." The observance of Christ's first Commandment will establish in us a strong, dignified personal relationship to God. If we love the Lord, God will give him the honor that is His due. We will especially use His Holy Name... we will not think it too much to spend one day of the week in His company.

"Thou shalt love thy neighbor as thyself." So did the Savior. Who should hold it in place among our neighbors, if not our parents or our own children?

And it would be obvious that if we love our neighbor, we will not take his life, or damage his health. Deceit in man love such excludes the best of love called an lie, and the desire to attack when this last makes upon the innocent and unprotected.

We would never steal from the ones we love, nor would we rob them of their good name. For a lie we would not, for a conscious hand to deceive them or the things in tended to make their lives full and contented.

Let's stick to Moses, whose Commandments to man beings to break the bonds that restrict the relationship that preserve human dignity, develop character and guarantee human values.

Let's stick to Christ, Who in a more spiritual way, pointed out that if we love man as our neighbor, we will obey the law of God. We will protect all the relationships that guarantee our own happiness and make life safe and happy for the people who are our neighbors.

The Ten Commandments are God's plan for human living. We you family with them? Do you understand how they are in your own life? Write today for our free pamphlet on this subject. Ask for Pamphlet No. 12, N.C.

St. Aloysius Rectory Is Setting for Wedding Service

Uniting Janet Lorraine Kerr and Vincent Giangiacomo

Wedding vows were exchanged Tuesday evening in a quiet, informal ceremony by Janet Lorraine Kerr, 615 Grant street, and Vincent James Giangiacomo, 26 East Fifth street.

St. Aloysius Catholic church rectory was the scene of the double ring service, read by the Rev. George P. Hiller.

Mr. and Mrs. Elwood L. Kerr, 615 Grant street, are the parents of the bride.

The groom is the son of Mr. and Mrs. Louis Giangiacomo, 26 East Fifth street.

To repeat her nuptial promises, the bride was clad in a tailored suit of pale blue.

Her hat was a white, ripple-brim bonnet trimmed with lily-of-the-valley.

She pinned a corsage of white carnations to her shoulder to complete her wedding costume.

Maid of honor was Florence Giangiacomo, a sister of the bride.

Her tailored suit was navy blue in hue and was accented with light pink accessories.

Miss Giangiacomo's corsage was formed from pink carnations.

Valentine Giangiacomo, a brother of the groom acted as the best man.

Following the ceremony, a reception for the immediate families was held in the home of the groom's parents.

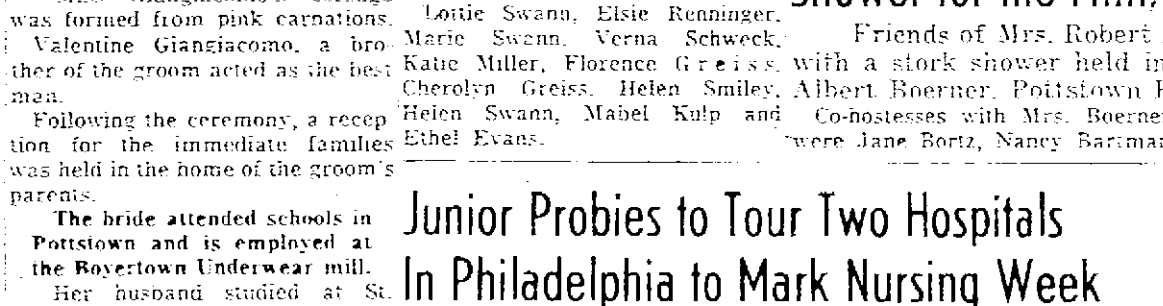

The bride attended schools in Pottstown and is employed at the Boyertown Underwear mill.

Her husband studied at St. Peter's Catholic High school in Reading and the Franklin school of Science and Arts.

He formerly was employed at the northern division of the Albert Einstein Medical center, Philadelphia, as chief X-ray technician.

At present, Mrs. Giangiacomo is serving with the United States Army Medical corps.

Gardening this Week

By KATE PERKINS
CHAPPAQUA, N. Y., April 17 (AP) — Dawn is breaking earlier, twilight lingers longer and the time approaches when the soil, warmed by the Spring sun, is ready to receive seeds and young plants.

As far as my own planting schedule is concerned, I pay no attention to what the weather is saying and stick strictly to a hard-and-fast date (which for me, in my location, is May 15 or the closest Saturday and Sunday) to take the wraps off tender seeds and frost-susceptible seedlings.

I've found, repeatedly, that it's pointless to try to beat the season. Things I've put in the ground at their proper time soon catch up with lucky gambles I've made ahead of time.

The only two exceptions I make to this hard-and-fast rule are bush beans and gladiolus. If the ground is normally dry, I take an annual chance on beans by putting them into the ground anywhere between two or three weeks early.

If I'm lucky, the plants get a head start which for reasons known only to experts, I suppose, makes them less attractive to those nasty bean beetles and their disgusting yellow cocoons. I've lost sometimes from cold weather, but more often from too much rain.

GLADLY, I'VE FOUND, frequently live over in my garden (I always lose track of a few of them in the fall) even when the winters have been severe.

So I'm prepared to start my succession planting of the corn—carefully treated earlier against trips—just about as soon as the ground has lost its worst chill and the soil workable.

In the Spring I think that the Spring garden is the most beautiful of all the seasons, but partly that's just because we're so eager after a long dull winter.

But with daffodils, grape hyacinths, violets and tulips and, particularly bleeding heart and dog wood and the young green of the grass turning the garden into a palette of delicate colors, it just doesn't seem that any other garden season can match it.

I've been wandering from clump to clump making notes on varieties I find particularly enjoyable, and

marking others for replanting after their foliage has turned brown.

Fall, after the Spring bulbs have had several months to store up for next year's bloom, is actually the ideal time to thin out clumps and move bulbs, but I've had good luck moving them a bit earlier when they are still easy to find.

Growers have been cautioned to look again at their intentions to plant potatoes this spring, and—some of the late crop states, at least—revise their plans downward.

The late crop states, where about 80 percent of the Nation's potatoes are produced, have not yet started planting for the 1953 season.

According to plans of potato growers, they intended to plant 1,500,000 acres of potatoes in 1953, which would be an increase of 32,000 acres over 1952, with most of the increase in the high-yielding commercial areas.

At average yields, this acreage would produce a crop of 385 million bushels, 25 to 30 million bushels more than is needed to meet all national requirements for potatoes.

"Production so much in excess of needs is bound to result in lower farm returns," Secretary Benson said, in commenting on the planting intentions.

Farm Bureau Approves of Budget Cut

CHICAGO, April 17—General approval of the economy approach in the recommendations of Secretary of Agriculture Ezra Taft Benson on appropriations for his department was expressed at a meeting of the board of directors of the American Farm Bureau federation here.

As the federation has been on record for several years in favor of strict economy in all branches of the Federal government, Benson's suggested cut of \$70 million in USDA appropriations for fiscal 1954 received unanimous approval of the farm organization leaders.

On three farm appropriations—farm research, the Foreign Agricultural Service, and the Co-operative Extension Service, the Federation noted that while increases had been made, they were not as large as had been hoped for, but the fed-

eration agreed to accept the budget recommendations.

THE FEDERATION had stressed the need for greater appropriations in these three items because it believes they are key programs in solving farm problems.

The federation approved the approach of the Secretary in his authorization for conservation payments to farmers for the 1954 crop year calling for a cut from \$250 million to \$140 million and increased emphasis on non-recurring practices.

New Bush Sweet Potato Is Practical For the Small Home Vegetable Garden

Available now is a sweet-potato treat for many home gardeners. It is a bush type which is practical for even the small home vegetable garden. It is called **Murfi**, and one of the tubers is shown in the accompanying Garden-Graph.

This bush type sweet potato spreads only about three feet wide in the row, and in height is only 18 inches. There's room for a row of them in almost any garden.

One can buy these potatoes for planting, but it is much more convenient to buy "slips" or transplants.

These started plants are shipped for planting in northern areas from May 13 to June 15. They are available, of course, earlier in southern states.

In temperate zones it is usually safe to set out the young plants in June and count on harvesting the crop in late September. Make sure you obtain young plants with well developed tops and roots, as illustrated.

SET SWEET POTATO slips 12 to 15 inches apart. A light, well-drained sandy loam with a clay subsoil is the ideal soil for sweet potatoes. Good drainage is just as important for sweet potatoes as for other crops.

When planting sweet potato slips dip the roots of each one into a pan of prepared mudwater.

This process, called "mudding," covers the roots with a coating which not only prevents their becoming dry while being handled but insures a direct contact with the soil when the slips are planted.

The tubers can be dug as soon as the leaves begin to yellow.

Roses Are Used for Camouflage

Nurserymen report that more and more gardeners are using roses not only for the magnificent color and bloom, but also as a practical solution in camouflaging "problem areas."

Many gardeners arrange their rose plantings by color, and pleasing effects may be achieved by blending the colors gradually or creating dramatic contrasts.

Level uninteresting sections can be enlivened with formal or natural plantings of hybrid teas, and other spots in the garden will welcome the lively colors of floribundas.

Regardless of what effects are sought, however, gardeners should choose hardy pre-tested roses. Such varieties as the All-America Rose selections which have been carefully tested for two years will give the best results.

The winners of the 1953 AARS floribundas which are a continuous award, Chrysler Imperial and Ma Perkins, will be blooming in garden growing season.

Three Convoys of Sick and Wounded Reach Red Truce Camp at Kaesong

MUNSAN, Korea, Saturday, April 18 (AP) — The Allies and Communists Friday agreed to begin spadework Sunday at Panmunjom for renewed Korean armistice talks, which could collapse again if the Reds haggle.

Meanwhile, three convoys of US and other Allied disabled prisoners reached nearby Kaesong, Com.

LATE BULLETIN

PANMUNJOM, Saturday, April 18 (P) — The Communists today proposed that the first 25 disabled prisoners of war be handed over to the Allies at 9 a. m. Monday (7 p. m. Pottstown time Sunday) and the second group of 25 be delivered a half hour later.

The Reds also proposed that the third group of 25 be turned over at 2 p. m. (Sunday mid-night) and the fourth and final group of 25 for the day at 2:30 p. m.

Communist truce camp, for the exchange of sick and wounded. The exchange begins Monday even if the fate of the armistice talks remains undecided at that time.

The Communists announced that a fourth convoy of 20 trucks, presumably carrying more Americans and non-Koreans, would begin the long journey south from stockades near the Manchurian frontier on Sunday.

The Communists Friday did not use the convoy routes to send swarms of trucks loaded with military supplies south to the front, as they did Wednesday and Thursday.

THE ALLIES in accepting Communist requests for renewed negotiations made it clear they were sticking to the principle of voluntary return of prisoners, the issue over which the talks mired on Oct. 8. They also served notice that any new talks must produce quick results or go back into recess.

The Communists showed no sign of backing down either. A Peiping broadcast heard in Tokyo said the principle that all prisoners must be returned "is one from which there can be no deviation."

The broadcast quoted an editorial in Peiping's World Culture, which obviously was written before the Allies offered Friday to resume talks. However, the broadcast came after the offer was made known.

World Culture said an armistice "will not in itself mean peace in Korea and the Far East" but would help "immensely to the easing of international tension."

CHINESE RENEW ATTACK AGAINST PORK CHOP HILL

Red Mortar, Artillery Fire Rain Down on GI Defenders

SEOUL, Saturday, April 18 (P) — Chinese infantrymen renewed their assault on Pork Chop hill in the pre-dawn darkness today and bitter fighting raged on into the daylight hours for the Western front outpost.

Communist mortar and artillery fire rained down on the shell-blasted peak.

Allied defenders broke up Chinese efforts to reinforce the initial attacking force of 200 troops.

The Reds threw 1000 troops against Pork Chop and five other key peaks Thursday night and early Friday. All assaults were repulsed, some after hours of fighting.

IN THE AIR WAR, the Fifth air force said Sabres knocked down four MIGs from the skies of north-west Korea and probably destroyed a fifth. Capt. Manuel Fernandez Jr., became the hottest active jet ace by bagging his 11th MIG. He maneuvered it into crashing without firing a shot.

Allied fighter-bombers again limited their attacks to ground targets north of the central front and along the East coast to avoid any mistake attacks on Red convoys bearing Allied sick and wounded prisoners southward for the exchange beginning Monday.

Only the sound of long-range sniper fire and the occasional whump of incoming artillery broke the quiet at the five hills west of Chorwon where US and South Korean soldiers early in the day turned back savage Chinese attacks until the attack began.

Three Chinese still held out earlier in an American trench on Pork Chop hours after most of the 200 Reds who hit the hill were driven off.

YOUNGSTER DOOMED—Unaware that doctors give him only a few months to live, Michael Dutch, 4, sits contentedly in his crib waiting for nurse Margaret Oberance in a Pittsburgh hospital to read him a story. Tests indicate that the youngster, son of Mr. and Mrs. Michael Dutch, of Natrona, has had leukemia, malignant blood disease, for at least two months. There is no cure for the ailment.

Doctor Reveals Curable New Ailment—“Smoker’s Asthma: The Cure—Quit!”

ATLANTIC CITY, April 17 (P) — A Detroit doctor today described a newly recognized but highly curable ailment “smoker’s asthma.” The cure, said Dr. George L. Waldbohn, is: Quit smoking.

He told the closing session of the American College of Physicians’ annual meeting that in 58 cases of it, 28 recovered completely after they stopped smoking and 24 others upon elimination of smoking combined with antibiotic treatment.

He said that in eight other cases, having some of the same symptoms but with other symptoms not noted in the first two groups, nothing could be done to reverse their condition.

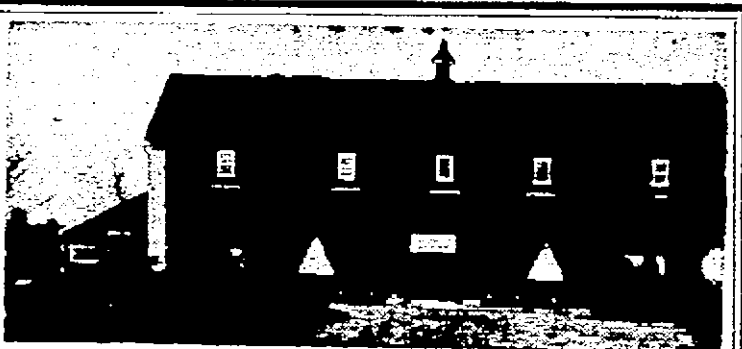

He said it couldn’t be proved that their condition resulted from smoking, but he declared all eight had a history of “intensive chronic smoking habits” and that there is “presumptive evidence” that “smoker’s asthma” led to their particular condition.

THE HARPER hospital doctor described “smoker’s asthma” as a condition with these symptoms: Chronic inflammation of the Adam’s Apple area of the throat; wheezing, shortness of breath; a tendency to respiratory infections; constriction of the chest above the heart; and prolonged coughing in the morning sometimes requiring several hours to clear the throat of mucus.

The physician said that hitherto there have been few sci-

TROOP CARRIER JUMPS TRACKS, ENGINEER DIES

Ten Carloads of Soldiers Escape Death, Injury as Train Leaves Rails

WEST UNION, W. Va., April 17 (P) — A westbound Baltimore and Ohio troop train was wrecked just east of here tonight, killing the engineer and derailing seven of the ten cars, including five sleepers.

A railroad spokesman said the steam locomotive, a baggage car and one sleeper jumped a 40-foot embankment and overturned in a creek. Three other sleepers were turned over and were lying between the track and the creek. A kitchen car and a sleeper were derailed but were still upright and three other sleepers were still on the track.

The train was carrying troops from Ft. Meade, Md., to Las Vegas, Nev., according to the railroad. The railroad's headquarters in Baltimore reported that the officer in charge of the troops said none of the soldiers suffered much more than a few scratches.

Ambulances and fire engines were rushed to the scene, along U. S. Route 50, about 30 miles west of Clarksburg in North Central West Virginia.

H. EARL PROUDFOOT, chief clerk at Gratton identified the dead engineer as Ira W. McDowell of Parkersburg, W. Va. Gerald E. Marshall, the fireman, also of Parkersburg, was the only known injured. He was brought to a West Union hospital.

Railroad spokesman could not say how many men were aboard the train.

It consisted of eight pullmans, an Army cook car and a baggage car.

Proudfoot said soldiers in the five pullmans that left the track were put in the three remaining on the rails and were being returned to Clarksburg.

Proudfoot said cause of the wreck had not been determined. The train was "only doing between 28 and 30 miles an hour" when it left the single track he said.

In August, Ga., where Eisenhower is taking a golfing vacation, a White House official indicated that the Administration is awaiting a clear response from the Soviets.

"We laid it on the line. We are now awaiting the answers," said an official said. Meanwhile, a swelling tide of applause for Eisenhower's peace power of the United States, not to

move continued to roll in from free world capitals. British Prime Minister Winston Churchill called it "massive and magnificent."

ADDRESSING A RALLY at Glasgow, Scotland, Churchill declared:

"He (Eisenhower) has set forth the range of practical issues which divide the world. He has declared the resolve of the free nations, headed and sustained by the giant applause for Eisenhower's peace power of the United States, not to

Burma Backs Nationalist Aggression Charge With Documents Before UN

UNITED NATIONS, N. Y., April 17 (P) — With documents and photographs, Burma today backed up her charge that 12,000 Nationalist Chinese troops, directed from Formosa, are waging aggressive war on her soil. She won immediate support from the Soviet Bloc, India and Yugoslavia, but Western delegates were silent.

Nationalist Chinese replied that the Chinese force in Burma is a "national salvation army" made up of heroes, but that Formosa does not have direct physical control of it. The Nationalist Chinese also pledged co-operation with Burma.

Marines Will Figure In Sixth Atomic Test

LAS VEGAS, Nev., April 17 (P) — The Atomic Energy commission indicated that the sixth atomic detonation of the Spring series will be staged before dawn tomorrow at the Yucca Flat Proving ground.

At a press conference, which invariably precedes a test, officers said 2200 Marines will participate in the exercise, crouching in 6-foot trenches about 4000 yards from ground zero.

Brig. Gen. Wilbur S. Brown, Camp Pendleton, Calif., commanding officer of the participating Leathernecks from Pendleton and Camp Lejeune, N. C., told newsmen that in addition a group of volunteers from the armed forces will be in trenches nearer the detonation point.

President 'Much Better'

AUGUSTA, Ga., April 17 (P) — President Eisenhower sat out in the sun today and was reported feeling "much better" after a bout with food poisoning.

This morning presidential Press Secretary James C. Hagerty told newsmen Eisenhower was some better but still had some abdominal pain and planned to spend the day in bed. During the day, however, Eisenhower improved steadily and he left his vacation cottage at the Augusta National Golf club to sit in the sun.

On Capitol Hill, Secretary of State Dulles emphasized the Administration's determination not to slacken the defense build-up unless the Kremlin shows definite and speedy signs of easing world tensions.

Referring to Eisenhower's speech yesterday before the American Society of Newspaper Editors, Dulles told newsmen: "It is obvious that unless there is a very prompt response from the Soviet Union in a great many respects, it will be quite apparent that clearance from Formosa to any plane seeking to land near the fronts, East and West, to develop a strong position."

200 Watch Installation of Officers At Executive and Foremen's Session

More than 200 persons attending the ladies' night meeting of Pottstown Executives and Foremen's club at the YMCA witnessed the installation of new officers and heard a philosophical talk by a nationally known speaker.

State Suspends 10 Drivers Licenses

There are almost as many ways to have your driving license suspended as there are to have an accident.

This was shown yesterday by the State Bureau of Highway Safety's report for the week of March 30, which also showed that one Pottstown area driver had his license revoked; ten had theirs suspended, while restorations went to two drivers.

Motorists had their licenses revoked for 11 different causes, ranging from intoxication (the most common cause by far) to failure to stop at an accident and just plain stealing a car.

There were 43 different causes or combinations of causes for which licenses were suspended.

SYRACUSE, N. Y., April 17 (AP)—A pre-trial examination in a million-dollar suit against Publisher Samuel I. Newhouse, two of his newspapers and a radio-TV station, was adjourned today until April 27.

Nelson J. Kidd, treasurer of the Syracuse Broadcasting corporation, which brought the action, identified and described various records of the plaintiff firm for several days in the proceedings which began April 9.

Syracuse Broadcasting, operator of radio station WNDR, filed the suit, alleging restraint of trade, in Federal District court the past Nov. 24.

The action for \$1,088,122 named Newhouse, the Syracuse Post-Standard, the Syracuse Herald-Journal and the Central New York Broadcasting corporation, which operates Syracuse stations WSYR and WSYR-TV.

YOUR GEM STORY FOR TODAY

TO PARENTS AND FRIENDS OF HIGH SCHOOL GRADUATES ONLY

Doesn't it seem like only yesterday that your graduate was only a small child? Right before your eyes they have grown to be fine young men or women.

During the next 2 months your loved one will experience the most exciting and enjoyable schedule of events in their young lives... their Graduation from High School.

To send them out into the future, no doubt, you will want to present them with a gift, a memento, and a reminder of their graduation. And what more perfect gift could you give than a beautiful piece of jewelry? A gift which will increase in value and sentiment throughout the years. A gift they will use and cherish always. Doesn't a fine article of jewelry seem sensible; rather than one which will be worn out or forgotten in a short time?

We have been Graduation Gift Headquarters in this area since 1885. Our stocks are complete with the fine watches, jewelry, or silver that you have seen in magazines and on television. In other words "We have what they have always wanted."

You will be surprised how the prices of really fine gifts can be well within your budget. You will find watches, and good ones too, starting at \$24.75; silver and jewelry starting at \$1.00.

Why don't you stop to see us when you are shopping for their gift. You will find no high pressure salesmanship at our store. And you will find no so-called "bargains" either, but you will always get full value for your hard-earned dollar.

Whether you stop to see us or not, please convey our best wishes to your graduate.

See you next Saturday.

"sprinkled his talk entitled, 'Just What the Doctor Ordered,' with philosophical expressions such as: 'The character of the few is the soil out of which the good for the many grows.'"

"In a day when so many of the relationships among men are predicated upon hate and we live by the premise that the technique of the jungle alone will operate effectively, it is essential that we cultivate every agency that has mankind as its business."

"Today's America calls for the same type of living as brought into existence."

The Rev. Laurence T. Beers, pastor of First Baptist church, said the invocation. Francis Hennessey, accompanied by Stanley Emery on the piano, led group singing.

GOLF BALL HITS BOY ON RANGE

11-Year-Old Struck Over Left Eye Receives 8 Stitches

An 11-year-old Pottstown boy narrowly missed having a serious eye injury yesterday afternoon when he was hit by a golf ball on the driving range at Brookside Country club.

Hub Glenn, son of Mr. and Mrs. Isiah Glenn, 631 Beech street, was struck just over the left eye by a golf ball that had traveled nearly 200 yards. He had a laceration requiring eight stitches to close.

The boy had been retrieving golf balls on the range at the time, his mother reported. He was taken to Pottstown hospital by Steve Grady, club professional who operates the range. Grady was not on the range at the time of the accident.

MRS. GLENN SAID Grady had told her he would notify her attorney when the golfer was. It was believed he was a Reading man, guest of a club member.

The boy was discharged after treatment. His mother said he seemed to be recovering satisfactorily at home.

2 Douglass Schools Award Contracts for New Roofing Jobs

Two schools in Douglass township (Berks county) will get new roofs as soon as the school term is over.

At a meeting Thursday night, bids were opened for a roofing job for Pine Forge school. The bid was awarded to the Berkland Roofing company, Reading.

The cost for the roof was set at \$475. The school board, after opening the bids, decided to have a new roof put on the Colebrookdale school at the same time. The cost will be the same, \$475, for each school.

According to the contract, the work on the roofs is to be completed within 30 days after the projects are started.

The current school term will be over late in May, at which time work is expected to be started.

State Board Tells Town To Submit Sewer Report

HARRISBURG, April 17 (AP)—The Justice department ordered officials of Portville, Allegeny county, to submit a report by May 15 on preparations for treatment of sewage and abatement of stream pollution.

The action was taken after the State Sanitary Water board had charged the municipality with building sewers without a permit.

The board said it ordered Portville first to submit plans for treatment or abatement of the pollution but that the municipality had gone ahead on its own in building sewers without State Board approval.
